

50 Cal Receiver Rack (Twin) Part No. BDI 18800-2

12.7mm Twin Rack, BMG, vertical mount (no barrels).

The locking system is approved, ensuring the highest degree of security.

The modular design enables Bale Defence Industries to design and build the storage system to your needs, maximising the use of space in the armoury or storage area without compromising security.

Bale Defence Industries has designed this particular storage system for the Australian Defence Force and is able to design differing weapon configurations to suit operational requirements.

The Rack can be either plug welded or securely bolted to the deck / bulkhead using hidden or security fasteners.

The materials used in the construction of the racking are from 316 S/S and thermoplastic.

Parameters: 547mm (W) x 1040mm (H) x 265mm (D) x 46kg.
